

SUPER BOWL LX

DRINKING GAME

- If you're in a smaller group, have each player select one sheet with 10 different events on it.
- If you have a larger group, cut up the cards, lay them face down, and have each player take turns selecting one card until everyone has picked. Then, go through the list of participants again until each card has been selected.
- Each time one of the events on a card happens during the game, the person holding that card must take a drink.
- The person who has taken the most drinks at the end of the game, wins!
